Hi, I completed my final report assignment for this class today, but I have not submitted it yet. I wanted to first ask about the maximum length, since I know for the mid term, I could not submit all of it and just submitted the Conclusion section rather than all the details of the entrepreneur interviews, since it would not accept it otherwise. So before I submit the final report assignment, I was wondering if the submission tool had a maximum length on it so that I can make sure my report meets that limit before submission this time. If there is no limit, I will submit the entire report this time. Thank you.

I don't believe there is a length maximum limit but since the Coursera system cut you off last time, you should just try it and see if it allows you to submit what you have. You'll see in the submission form that each section is broken into its respective part, so you should be able to submit each part individually, as required.
Let us know if you find any technical difficulties.

thanks!

Thanks Anna - I did see the submission form this time was broken into sections yesterday when I submitted my report. I decided though to focus on just one of my entrepreneurs in each section even though I had written up blurbs on 8 total entrepreneurs that I interviewed and when I answered the questions, I just focused on the one entrepreneur. However in the last section in regard to success measures, I summarized all 8 entrepreneurs success measures since I felt that we could learn from all those experiences when I wrote that section. Given there is time to re-submit my report, please let me know if you recommend that I add the other 7 entrepreneur blurbs to the various sections of the form report. It's already written but yesterday when I saw the form I just focused on one of them. I was not sure if it would be too much for someone to have to peer review and thought if I added too much that person may be upset! ;-). It is interesting though to hear all their stories so if you feel that it would be good to add those sections, I'll go back and do that today. It's really just cutting and pasting, since I already wrote it up in a document. This morning I'm taking my final exam and then I'm done (except for the upcoming peer review!) Thank you. ;-)
