## thank you - done until peer review is done unless you recommend adding other entrepreneurs to final project

Hi, I completed the final exam today, and yesterday submitted the final project write up based on only 1 of the 8 entrepreneurs that I interviewed, the closest fit entrepreneur within my local ecosystem, to answer the questions and make recommendations. However, before the end of today, since it's due today, if you think it would be beneficial to add the write ups of the other 7 entrepreneurs whom I interviewed, and put the answers to the questions asked for them as well, I do have that information in a document, but I did not include it yesterday, since my concern was for the peer reviewer - that it would be too long to include them all, even if you learn from all of their experiences. So what I did was include in the success measures and who benefits section, all 8 of the entrepreneurs interpretations of that, and that was it. So please let me know if you recommend adding the other 7 entrepreneurs I interviewed to answer all the questions, or if I should just leave it as is, and include all 8 just in that final section on success measures and who benefits. If I don't hear by the end of today, I'll just leave it as is, and not add anymore, and assume it would be too much for my peer reviewer, and that I made the right decision yesterday.

So in any case, thank you once again for a great course on "Beyond Silicon Valley: Growing Entrepreneurs in Transitioning Economies", and I will be back to do my peer review once that phase begins.
